

Time Table/Turnaround Time/Availability

We keep our retail bins fully stocked with only the best pine products. Whether you are looking for S4S or pattern boards, we stock various thicknesses and widths that range up to 20” wide. Bingham prides itself on the size and quality of our pine inventory.

Our retail barn is not limited to pine, Bingham stocks 4/4, 6/4 (limited), and 8/4 traditional and reclaimed hardwoods perfect for any custom project. This material includes both S4S, moulder blanks and live-edge material. Our newly constructed lumber barn allows you to drive right in and load your vehicle with the material you can hand pick. However there are some items that are not “stock items” and therefore must be special ordered. Please see the time table below and inquire through our Contact Us link for further questions.

Custom Milling Projects (Client Supplied Lumber) :

Exotic woods :

Call for information and availability, Bingham lumber has access to many different kinds of wood in different sizes. If you need it, we can probably find it!

Bingham can deliver your order within days of it being completed. Please see delivery expectations for more info.
