

CLASSIC PLANK

CHERRY

Wide Plank Flooring

Used in many traditional homes for millwork features and custom panels, our wide plank Cherry flooring will contain deep copper tones and minimal sap content. As cherry ages it will naturally deepen in color to a rich auburn. If you are looking for a traditional flooring choice that will age with grace, wide plank Cherry flooring is an elegant and polished choice.

The black cherry tree is common to many parts of North America as well as South America. They can live for hundreds of years and are known by a few different names. Some of those names are Black Cherry, Mountain Black Cherry and Rum Cherry. Cherry trees, however are difficult to cultivate and are highly susceptible to rot and pest damage.

*Please note that wood is a natural product and because of this we recommend ordering samples of our products before making your flooring choice. We will send multiple pieces of each product to give a full representation of the grade and specie. Together, these pieces represent the grade, specie or product specified. Please do not reference an individual sample, piece of the sample or image as an accurate representation of the entire grade, specie or product. Please consult your sales representative with any questions or to request more samples.
