

RECLAIMED PANELING

NORTH FACE WALL

Wide Plank Paneling

North Face hardwood paneling is one of our most popular wall covering options. Typically harvested and named for the barn board found on the “North Facing” side of the structure, this material is sorted and chosen for its rich light brown to dark chocolate patina. Boards then to contain knots, nails holes and many imperfections. Bingham uses a custom technique to sand this product. This leaves a smooth-to-the-touch feeling, with all of the natural characteristics still maintained. The Bingham North Face custom paneling features reclaimed hardwood barn board. Barn board is found throughout a salvaged barn in mainly three areas; siding, loft boards, and interior partitions. Barn board that was exposed to the natural heat and the elements has aged overtime creating not only unique coloring, but one-of-a-kind textures. The hardwood barn board is found from the mid-Atlantic states right up through the Ohio River Valley. Bingham values the long time relationships with other small family run businesses to source and reclaim the finest materials our salvaged barns have to offer.

SPECIFICATIONS

Plank Widths	3-5”, 4-7”, 5-9”, 10”+ available upon request

- Manufactured in N.H.
- Bingham’s office, showroom, kilns and manufacturing plant are heated by using wood waste

*Please note that wood is a natural product and because of this we recommend ordering samples of our products before making your flooring choice. We will send multiple pieces of each product to give a full representation of the grade and specie. Together, these pieces represent the grade, specie or product specified. Please do not reference an individual sample, piece of the sample or image as an accurate representation of the entire grade, specie or product. Please consult your sales representative with any questions or to request more samples.
